To Whom it May Concern,

Re Liz McKenzie, Property Manager

Liz has been working as the Property Consultant for Selwyn Park School in Dargaville for the last seven years.

Since starting her own business, Liz has been able to build a strong team around her. Her staff are easy to deal with and they are always up to date with the latest developments.

The service she has provided for this school has been outstanding.

She is prompt in responding to queries.

She is accurate in her assessments.

She is right up with the state of play as far as Ministry of Education property policy and direction is concerned.

Liz maintains strong working relationships with Ministry and school personal, as do her growing team.

She is proactive in maintaining a sound working relationship with the Board of Trustees and myself.

She provides sound and timely advice to assist us with property decisions.

She is rigorous in her supervision of the projects she oversees.

Her paperwork is easy to read, well explained and accurate.

She sets and maintains high standards of service to her clients.

She is honest in her assessment of property needs and realistic about results.

I have no hesitation in stating in glowing terms, the outstanding job Liz does as our property consultant. In my opinion, and I know in the opinion of many other Principals in the North, Liz (L.M. Consulting) should be added to the Ministry of Education's "Preferred Suppliers" list.

Yours Sincerely

Vern Stevens
