To Whom it May Concern,

Re. Reference for Liz McKenzie – Project Manager/Director – LM Consulting Ltd

I always thought Project Managers were just another layer of cost for clients until I met Liz McKenzie. I have worked with Liz in her capacity as a project manager for the past 11 years. We have worked closely together on numerous projects of significant value. I provide the design element while Liz manages the construction build ensuring the project stays within quality, financial and time requirements. I work with many different project managers and Liz is by far the best project manager that I have come across. In this regard, I have full confidence making the following statements in relation to Liz's professional competencies.

- Experience: Liz comes with twelve years of project management experience. I have appreciated her ability to relate to all the professionals associated with the project. What I have enjoyed is her clear, direct and pragmatic approach to completing the job.
- Ethical: Liz has a very clear sense of right and wrong and strives to do her best for the successful completion of the job. I personally know that Liz likes a quality job done that all can feel proud in being a part of. She does not take short cuts and it shows in the results.
- Communication: Liz is very clear when she communicates. She communicates what needs to be done in a clear and concise manner and is very quick to identify where there may be potential challenges and issues that have to be addressed.
- Drive: Liz, in her personal and professional life, is a high achiever. Her business is thriving and this is due to her excellent reputation. I think what people value is her ability to 'be part' of what people are trying to achieve.

As you can see, I value my working relationship with Liz and fully support her application to become a preferred supplier for the Ministry of Education. Please feel free to phone to discuss further.

Kind regards,

Simon Mandeno
